File this under Justice Porn...

A miserable seething bitch and her browbeaten husband are the stars of a new video making it's way around the internet after the woman, a horrible human being, decided to berate a Trump supporter on an airplane. First, here's what happened from the guy it happened to:

Scott Kotesky

Just had the craziest experience ever on an airplane:

I'm boarding my flight from Baltimore to Seattle and approach my seat. I had an upgraded seat that I paid a little extra for because of the long 6 hour flight. As I approach my row I smile and motion to the husband and wife sitting in the aisle and middle seat that my seat was next to the window. I put my backpack in the overhead and the wife with a very stern voice says to me:

"Did you come here to cheer or to protest?"

"I came here to celebrate democracy ma'am"

... I knew this was going to be a long flight at this point. She then proceeded with: (somewhat paraphrased as my memory allows)

Her: "You put a crazed man in charge of the nuclear codes! You should be ashamed!"

Me: "Well we're all entitled to our opinions here ma'am."

Her: "And I'm entitled to get drunk and puke in your lap! I'm going to throw up right in your lap! You make me sick! Don't talk to me! Don't look at me! Don't you dare even put your arm on that rest. You disgust me! You should be ashamed of yourself! You put a maniac's finger on the button" (assuming she's means nukes). You are a bigot. You should get off this plane!"

Me: "ma'am, by definition, bigotry is disparaging someone prior to knowing them simply by their beliefs and opinions. Thank you for being the very thing you preach against."

She then proceeded with other various rantings such as my lack of critical thinking and other insults. Finally a flight attendant came over as you will see in the video followed by a supervisor informing that she would have to deboard the plane per captain's orders.

The first flight attendant to deal with his bigot isn't having any of her shit:

Attendant #1: "Is there going to be a problem?"

Woman: "There will be, I would like for him to change seats with somebody who did not put us all in harm's way"

Attendant #1: "Well, you don't have that right!"

[mic drop, goes to get other flight attendant]

When the second flight attendant breaks the news of her impending ejection, this ivory tower liberal starts throwing her dead mother in law out to try and gain some sympathy:

Woman: "I'm going home now. My mother in law, his mother, died. And we had to be here. I'm going home now, there is no way I'm getting off this plane."

Attendant #2: "I'm terribly sorry for that, but that does not give you the right to treat people the way you've been treating them."

[indignancy intensifies]

Husband: "What if we trade seats and she quiets down? How would that be?"

Attendant #2: "Unfortunately **the captain** has already made the call..."

DENIED
