## Day 139 Summary

In this post, I will attempt to summarize the key developments in George Webb's latest videos. Over the last 2 weeks Webb has increasingly focused on the connections between the Awan brothers and the hacking of US congressional members.

## The Awan Brothers

- 3 Awan brothers are named by Webb : Imran, Jamal and Abid. (A 4th brother and wife of one of the Awan's are also believed to be involved).
- Originally installed in congressional positions by Greg Meeks who is widely regarded as the most corrupt member of congress.

- Jackie Speier and Debbie Wasserman Schultz also requested top secret clearance for the Awan brothers. **The Awans are Pakistani Nationals not US citizens.**

- Awans worked for 31 different congressional democrats and notably 21 burglaries of these congressional offices have alleged to have occurred.
- Awans worked under congressional members who work for top secret level congressional committees (DHS, Foreign affairs, Select intelligence committee).
- The 4 Awan brothers are rarely seen at congressional staff meetings.

- Awans are paid 2X the median salary of congressional staffers in similar positions.
- Awans operated an external server, which is against all protocols concerning secured government information
- Awans had special access to the White House for Visas
- It is believed that the Awan server houses Hillary's Enemies list in association with tracking information
- At least 1 of the Awan brothers operated a Fake Car dealership which shows signs of money laundering
- Since the 21 congressional burglaries, the Awan's have fled to Pakistan
- Awans held their step mother prisoner in a Springfield, Virginia home, also hacked and monitored her phone
- It is believed that the Awans are part of a network feeding a global information grid in association with overseas rat-lines
- Rat-lines are routes for weapons smuggling, drug smuggling, human trafficking, organ harvesting, and sensitive information
- Awans have links to drug lines from Pakistan to Turkey, connected to Hezbollah figure, Al-Attar, and exiled Turkish national Gulen.
- Gulen operates Madrassas all over the World and is believed to have been involved in the recent assassination attempt on Erdogan, the president of Turkey.
- Webb states that DynCorp is also involved in police training in Pakistan

## Webb's Red Flags

- Awans are paid 2X the median salary of congressional staffers in similar positions.
- Jackie Speier and Debbie Wasserman Schultz also requested top secret clearance for the Awan brothers.  
**The Awans are Pakistani Nationals not US citizens.**
- Awans worked under congressional members who work for top secret level congressional committees (DHS, Foreign affairs, Select intelligence committee).
- External Server

## Vault 7 connection

Webb makes connections to the Trump server hack that alleges Trump was communicating with Russian banks Alfa 1 and Alfa 2 during the presidential campaign. The recent exposure of CIA hacking tool Umbrage, by Wikileaks Vault 7 release, reveals that the CIA has the ability to disguise a hack by leaving Russian footprints.

## 3 External Servers

- The Clinton Server at State Department and the 650,000 emails
- Huma Abedin Server (Webb believes is the treasure trove)
- Awan's External Server housing sensitive US information from DHS, Foreign Affairs and Select Intelligence Committee

## **District Attorney of Southern New York Preet Bharara Fired**

- Webb believes that Bharara was ignoring the Clinton Foundation and slow footing any investigation
- New District Attorney in southern district of NY
- Opportunity to get someone in that will investigate Clinton's 650,000 emails

Source: ABC News

## The FBI Wall

- FBI director James Comey and deputy director Andrew McCabe should recuse themselves from the investigation.
- Comey has a conflict of interest having connections to the Clinton Foundation

### Comey Connections to CF

- McCabes received a 650,000 dollar bribe through his wife, Jill McCabe's, campaign for Virginia Senate

- FBI divided into 2
- 1 side of FBI is JTTF (counter terrorism) run by McCabe who's also slow footing investigation
- 2nd side of FBI are the field offices
- Anyone from JTTF side will stonewall investigation

## Webb Recommends

- 650, 000 from Huma and Hillary servers be investigated with Awan server
- What kind of connections to classified info was being moved from the Awan server to the Huma server.
- Then moving to Hillary server as staging server to sell to other countries
- Huma server is the treasure trove
- Release the Meta data
- Trump and Sessions should go after the Gulen faction to expose power players

Webb also Recommends to new Attorney General Jeff Sessions

- Investigate Palantir
