

1. After the election & then the inauguration, the objective of the Clinton/Obama criminals was simple : destroy the Trump Presidency at all costs. Sally Quillian Yates was one of the main conspirators. Read on.

2. The weapons these criminals used? The Clinton/DNC Trump-Putin lie hysteria, unmasked intel on Trump & his associates via the Fusion GPS FISA warrant, Clinton / Obama media proxies - and sheer desperation.

3. The FBI cabal that's emerging - Comey, McCabe, Priestap, Page & Strzok. And they're the only ones we know are involved. Others will be revealed.

4. The DOJ cabal & officials involved in applying for the FISA? We know it included at least Loretta Lynch, Sally Yates & Bruce Ohr. Others will emerge. It wouldn't surprise me at all if Yates was the DOJ lawyer who authorized the infamous October FISA. More on that in a sec.

5. Their masters ? Barack Hussein Obama & Hillary Rodham Clinton. Clinton is doomed, as we know. But Obama is now being caught in the crosshairs on numerous fronts. I think Trump has something special in store for him.

6. Anyway, the objective - take down [@GenFlynn](#) , Trump's new NSA. This was for three reasons.

7. #1 : Flynn knew all about Obama & Clinton's dirty secrets and was a dangerous enemy. He needed to be destroyed.

#2: taking down Flynn could lead to impeachment of Trump for obstruction of justice -AND

#3 : that would damage Trump's administration bigly, if not collapse it.

8. The method :

#1 - obtain wiretaps of Flynn discussing sanctions with Kislyak, the Russian ambassador, in Dec 2016 as part of the transition team.

#2 - get Flynn on record lying about those conversations.

#3 - use them to destroy Flynn - and Trump.

9. Remember, it is highly probable that there had been illegal unmasking on Team Trump from the moment he was nominated as Clinton's rival. That intel has also been illegally shared with the Clinton campaign & then spread to Clinton media proxies.

10. However, the October FISA was different, in that it specifically targeted Trump Tower, at the end of the campaign. With a highly specific objective in mind, as you will see. Read on, using a timeline.

11. October 2016 : Obama administration DOJ gets a FISA warrant illegally, knowingly using the uncorroborated DNC/Clinton funded Steele dossier, disguised as a FBI document by Strzok, as evidence.

12. Important : all those involved in applying for the FISA were committing felonies. Also from this point on, all investigations carried out by the FBI / DOJ are illegal/corrupted.

13. October/Nov - illegal spying on Trump Tower and his associates starts. None involved cared that they were breaking the law. Obama & Clinton were absolutely certain of a Clinton victory. They were going to bury their crimes once she was POTUS.

14. Nov 8 - Trump wins election, transition starts. Obama & Clinton, now in full panic, ramp up Trump-Russia lie, as well as unhinged anti-Russia hysteria, dividing the nation. Absolutely disgraceful.

15. November 10, 2016, President Obama (panicking) warns President-elect Trump against hiring Flynn. Obama expresses "profound concerns" about hiring Flynn to a sensitive, high-level national security post.

16. December 2016 - FBI / NSA have been illegally spying on Trump & associates. They record Flynn having a conversation with Kislyak, the Russian ambassador as part of the transition.

17. Remember, Obama's administration had specifically given Flynn permission to do so. They KNEW he was going to contact Kislyak.

18. Flynn & Kislyak discuss ways to ease tension when the new administration is inaugurated, which is absolutely normal. Also, Flynn almost certainly knows he's being listened to.

19. By now, Obama has Flynn's transcripts and a plan to topple Trump - if he makes it to inauguration - is taking shape. This involves Obama & Clinton Praetorians in the DOJ, FBI & media (Clinton is fully involved).

20. 29 Dec 2016 - in a disgraceful abuse of power, Obama expels 35 Russian diplomats from the USA and imposes sanctions - this was deliberately trying to incite public fear about the Trump-Russia lie, as well as part of the plan to destroy Trump later.

21. Think about how treacherous & desperate Obama was. He DELIBERATELY plunged US-Russia relationship into danger in full knowledge he was lying to the American public about Trump-Russia, as well as exaggerating the usual Russian hacking attempts.

22. Jan 11, 2017 - BuzzFeed publishes leaked Steele Dossier. Obama's last roll of the dice to bring Trump down before inauguration. A failure.

23. 20 Jan - Trump inaugurated as POTUS. One of the first things he does is appoint @GenFlynn as his NSA. Obama & Clinton's plan to get Trump removed as soon as possible is activated.

24. 24 Jan : Flynn was interviewed at the White House by corrupt FBI agent, Strzok. He was not read his rights & was taken by surprise - it was a set-up. Good news : Flynn knew the whole time.

25. Flynn deliberately denies discussing sanctions with Kislyak. The 'lie'. It doesn't matter, as Strzok's interview, not to mention the entire FBI investigation, is illegal anyway (based on illegal FISA warrant).

26. Main point : from this point on, all FBI/DOJ actions are connected in a chain of evidence, from the granting of the FISA warrant to the attempt to take down an inaugurated POTUS.

27. 24/25 Jan - Strzok/FBI immediately sends transcript of Flynn interview to DOJ. Enter the infamous Sally Yates to play her role (today, an undocumented felon awaiting indictment).

28. Jan 26 - Yates calls WH Counsel McGahn first thing that morning to tell him she had "a very sensitive matter" that had to be discussed face to face. McGahn agreed to meet with Yates later that afternoon.

29. During their first in-person meeting, Yates told McGahn about Flynn's interview with the FBI. Remember, Yates later testified to Congress that she felt "it was important to get this information to the White House as quickly as possible."

30. Jan. 27, 2017 - Yates' second in-person meeting with McGahn. One of the topics discussed was whether Flynn could be prosecuted for his conduct.

31. McGahn expresses his concern that taking action might interfere with the FBI investigation of Flynn, and Yates said it wouldn't. 'It wouldn't really be fair of us to tell you this and then expect you to sit on your hands,' Yates tells McGahn.

32. McGahn asks if he could look at the underlying evidence of Flynn's conduct, and Yates said they would work with the FBI over the weekend and 'get back with him on Monday morning.'

33. Jan 27 - Trump announces his EO on border security. Yates immediately instructs DOJ lawyers to refuse to endorse or implement it. Liberals rejoice.

Sally's delusions of grandeur go up a notch, no doubt.

34. Jan 30 - Yates called McGahn "first thing Monday morning" to tell him he would be allowed to "come over and review the underlying evidence."

35. She didn't hear back from him until that afternoon. However, she said she doesn't know whether McGahn or anyone from his office came to look at the material "because that was my last day with DOJ."

36. Jan 30 - Trump fires Yates for insubordination. What she doesn't know is that throughout this entire episode, Trump & Flynn have access to all FBI, DOJ & WH communications revealing the conspiracy against them.

37. Remember also that the OIG had quietly started their investigation by Jan 12, some 3 weeks earlier. This was NOT an Obama initiative, something many haven't picked up. It was in response to (quote):/...

38. /..'requests from numerous Chairmen and Ranking Members of Congressional oversight committees, various organizations, and members of the public.'

This was an investigation into Obama & Clinton launched right under the criminal's noses - and they never even realized.

39. Feb 13, 2017 - General Flynn resigns and 'disappears'. [@ThomasWictor](#) research has uncovered his likely role as NSA (carried on by McMaster) - to recruit a team of spooks, give them top-level natsec clearance & then release them back into the IC & DOJ, esp FBI.

40. Feb 14, 2017 - Comey claims Trump asks him whether he can go easy on Flynn, but gives Comey full discretion to act. Even if true, it falls so far below 'obstruction of justice' as to be a joke.

41. Shoot to May 17 - 1 December. Mueller, SC is appointed & begins the SC clownshow. During this time, I'm certain Flynn was continuing to co-ordinate with his ghost army of spooks, away from scrutiny.

42. 1 Dec - [@GenFlynn](#) cuts a deal for a process crime indictment. This is critical - Flynn is now free to tell his story to any authority, with no legal obstacles hanging over him. A story he's been wanting to tell for a LONG time.

43. What we see here is a planned, co-ordinated conspiracy to remove an elected & inaugurated POTUS from office, in the early days of a new Presidency. This was directed by Obama & Clinton & executed by corrupt officials at the FBI & DOJ. That's what will be revealed.

44. The entire basis for their effort was the DNC/Clinton funded Steele dossier - that they knew was a political smear, full of lies, funded (but never disclosed) by the Clintons, the DNC & Obama for America. All the crimes they committed stem from the Trump-Russia lie.

45. Drunk on power and arrogance, they arrogantly assumed that Clinton would win and they'd get away with everything. And forgot that their enemies had outsmarted them at every turn.

46. They made the choice to get into bed with Obama & Clinton, when they could have walked

away. A choice they will bitterly regret as they and their fellow conspirators are indicted, tried, shamed and jailed.

Including, of course, the fraud Sally Quillian Yates.

48. Hint - just enter Yates into the search engine!
